DST helps enable Industry linkages and provide hands on experience to students on industries latest/updated technologies.

Under the DST scheme, the courses are conducted to meet the skilled work force requirements of Industry so that after completion of training, the trainee who are awarded National Trade Certificate (NTC) under the

Scheme have an edge over regular ITI pass outs in terms of employability and employment opportunities in Industry. It is may conduct courses under DST scheme in:

ESSENTIAL INFORMATION TO STUDENTS FOR GOVT. JOB PORTALS & SCHOLARSHIPS

1. SCHOLARSHIP PORTAL :

▽ KANYASHREE:

www.wbkanyashree.gov.in

KanyashreePrakalpa seeks to improve the status and wellbeing of girls, specifically those from socio-economically disadvantaged families through Conditional Cash Transfers by:

Incentivizing them to continue in education for a longer period of time, and complete secondary or higher secondary education, or equivalent in technical or vocational streams, thereby giving them a better footing in both the economic and social spheres.

Disincentivising marriage till at least the age of 18, the legal age of marriage, thereby reducing the risks of early pregnancies, associated risks of maternal and child mortality, and other debilitating health conditions, including those of malnutrition.

It was also decided that the Scheme should confer more than just monetary support; it should be a means of financial inclusion and a tool of empowerment for adolescent girls. The scheme benefits are therefore paid directly to bank accounts in the girl's names, leaving the decision of utilization of the money in their hands.

To reinforce the positive impact of increased education and delayed marriages, the scheme also works to enhance the social power and self-esteem of girls through a targeted behaviour change communication strategy. The communication strategy not only builds awareness of the scheme, but includes adolescent-friendly approaches like events, competitions and Kanyashree clubs, and the endorsement of strong women figures as role models to promote social and psychological empowerment.

As more and more girls remain in school, it is envisaged that they will use the opportunity to gain skills and knowledge that will help them become economically independent. Even if girls do get married soon after they turn 18, it is expected that their education and enhanced social and emotional development will give them a better foundation for their adult lives. And over time, as entire generations of women enter marriages only after they have some degree of economic independence, it is expected that the practice of child marriage is completely eradicated, and women will attain their right to health, education and socio-economic equality.
